

Summary of Changes

AML Object & Attribute catalogue v1.0 dated November 2001

AML Object & Attribute catalogue v2.0 dated July 2004

Changes to the content of the AML Product Specifications have been incorporated into the O&A catalogue in the form of an Excel spreadsheet.

Changes specific to the spreadsheet O&A catalogue are itemised below

Ref	Change
Attributes sheet	<p>The new enumerates which are common to many list and enumerated attributes are coded throughout the AML content model as follows;</p> <p>Unknown = 601 Multiple = 602 Not Applicable = 603 Other = 604</p> <p>In the case of the “type of wreck” attribute this necessitated re-numbering some existing enumerates as follows;</p> <p>Target = 608 Landing stage = 609 Mulberry unit = 610 Anti-submarine barrier = 611</p> <p>In some cases the widely applied new enumerates above already existed on some attributes. Where the extant attribute is standard S-57 the numbers were not changed. In the case of the AML extension attributes the change was made to the numbering for consistency across the content. Changes were made to the following attributes;</p> <p>Burial mechanism Cardinal point orientation Contour type First sensor Ice attribute concentration total Ice lead status, Ice line category Ice ridge development, Ice stage development Iceberg shape, Ice-drift or iceberg direction Land ice Last sensor MGS type Product Sounding Velocity Type of tonnage</p>
Features	<p>New features added as follows;</p> <p>User Defined – u_defd - 20717 Small Bottom Object – smalbo - 20718</p>
Attributes	<p>New attributes added as follows;</p> <p>ICAO code – icaocd – 20719 Copyright statement – cpyrit – 22491 Textual description – txtdes – 20720</p> <p>S-57 attribute CATCOV included (missing from previous version)</p>
